	Examiner Gary C Hoge	Art Unit 3611	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 9, 21, 24 and 25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on February 28, 2005.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 11, 23 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no antecedent basis for “the folding advertising surface.”

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which the subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1, 3-8, 11-14, 16-20, 23, 26 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pettigrew et al. in view of Duer.

Pettigrew et al. discloses a system comprising a railing/grab bar/pole **116** of a shopping cart having an outer surface, the outer surface of the railing having a circumference; a body **600** having a first side and a second side opposite the first side; the body further comprising a first

Art Unit: 3611

edge, a second edge opposite the first edge, a distance between the first edge and the second edge, and a width defined by the distance between the first edge and the second edge. Although Fig. 4 shows the width being less than the circumference of the outer surface of the railing, on column 3, lines 37-44, Pettigrew discloses that the body may cover between 50% and 150% of the area and length of the railing. That range includes the case in which the body covers 100% of the area and length of the railing. A releasable adhesive is disposed on the second side of the body. However, Pettigrew does not disclose putting indicia on the outer surface of the body. Duer teaches that it was known in the art to provide advertising indicia on the outer surface of a body of the type disclosed by Pettigrew. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the body disclosed by Pettigrew with advertising indicia, as taught by Duer, in order to advertise products for sale in the store in which the cart is used.

Regarding claim 3, see column 1, line 50.

Regarding claims 4-7 and 16-19, the method of forming the device is not germane to the issue of patentability of the device itself. Therefore, this limitation does not distinguish over the prior art.

Regarding claims 8 and 20, the ink disclosed by Duer is a conventional ink.

Allowable Subject Matter

6. Claims 10, 15 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments with respect to claims 1, 3-8, 10-12, 14-20, 22, 23, 26 and 27 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
